## SYSTEM 2000

### Rain Screen System

CMG System 2000 is the industry standard bearer for pressure-equalized, rear ventilated rain screen panel systems. The next generation of dry-joint panel system design, System 2000 introduces a proprietary joint design that eliminates virtually all exposed fasteners, resulting in the cleanest panel joint available for superior appearance. Tested to meet the industry's highest performance standards, System 2000 is the architect's choice for stunning design and unmatched performance.

#### Features

- Sequentially installed rear-ventilated rain screen system
- No exposed fasteners
- Proprietary extruded aluminum attachment system
- Unique design allowing for efficient installation

#### Tests

- ASTM E283
- ASTM E330
- ASTM E331
- AAMA 508

# CMG ACM WALL PANEL SYSTEMS

CMG Aluminum Composite Wall Panel Systems offer incomparable design flexibility to achieve dramatic finished appearance and impact. Manufactured to exacting tolerances and standards using state-of-the-art computerized equipment, these systems meet the highest performance testing standards and requirements. A wide variety of available material sizes and finishes provides for an endless array of design options. Simplicity of design coupled with CMG's renowned attention to quality result in an unmatched finished product exceeding the expectation of designer, contractor and building owner alike.

## OVERALL PANEL SYSTEM FEATURES

- Superior flatness and design flexibility
- Available in a variety of thicknesses
- Available in a variety of high performance finishes
- Curved and complex panel shapes available
- Finish warranties available up to 30 years
- Up to 5' x 16' panel sizes

**Over 30 Years of Experience**  
*High Quality Products at Competitive Prices*

## Who We Are

Simply put, CMG manufactures the highest quality architectural building products available at extremely competitive prices. Whether it is slit coil, flat sheets, pre-formed panel systems or rainware, CMG products are manufactured to exacting standards. All CMG steel is produced domestically and specified to tight tolerances resulting in uncommon uniformity. Our wide selection of finishes are produced from coatings that are the very best available. We back this claim with the most comprehensive finish warranty in the industry.
