

COATED METALS GROUP

Coated Metals Group LEED Recycled Content Information

January 1, 2011

The following is information related to the recycled content of Coated Metals Group's (CMG) Ultra-Clad pre-finished steel substrate and subsequent products fabricated from it. Note that CMG employs multiple suppliers of steel substrate. As a result, the actual source mill location cannot be determined until the shipping point is established. For specific LEED information, customers are encouraged to inquire on an individual project or order basis. Note that all information provided has been submitted by CMG's independent supplier mills and is subject to change without notice.
