Material Safety Data Sheet

These products do not meet the criteria of hazardous chemicals as defined by the Federal Occupational Safety and Health Communication Standard 29 CFR 1910. 1200 (c). This form is being provided solely as general information and should not be construed as a determination that the product(s) are hazardous chemical(s).

General Information

Manufacturer: DB Building Fasteners, Inc.

5555 E Gibralter Avenue

Ontario, CA 91764 Phone: (909) 581-6470 Fax: (909) 581-6745

Product Identification

Product Type: Fasteners (Screws, Bolts, Nuts, Washers, Etc.)

Formula: N/A

Typical Chemical Composition

-Various metals, ferrous and nonferrous plating(s) or coating(s) See "Additional Information"

Physical Data

Physical State: Solid **Appearance:** Various **Boiling Point:** N/A Melting Point: Greater than 1400 Degrees

PH: N/A

Evaporation Rate: N/A % Volatile by Volume: N/A **Odor:** None Solubility in Water: N/A

Specific Gravity: 7.6 – 7.8

Vapor Pressure: N/A

Vapor Density: N/A

Fire and Explosion Hazard

Not Applicable

Reactivity Data

Stability: Stable

Incompatibilities: Acid(s) **Polymerization:** Will Not Occur

Hazardous Decomposition Products: None Anticipated

Health Hazard Data

Health Effects, Signs, & Symptoms: N/A

Usual Route of Entry: Sharp Fasteners May Cut Skin **Medical Conditions Possibly Aggravated:** None Know

Carcinogen Information: Cadmium and Nickel have been included on NTP'S list of Carcinogens. Gloves are recommended to be worn when handling Cadmium and Nickel treated metals.

Eye Contact: Not anticipated to pose a significant eye hazard **Skin Contact:** Not anticipated to pose a significant skin hazard **Ingestion:** Not anticipated to pose a significant ingestion hazard

Inhalation: Not considered an inhalation hazard

Occupational Exposure Control Measures

Eye Protection: Safety Glasses Recommended Skin Protection: Gloves Recommended Ingestion: Do not place fasteners in mouth Inhalation: Face Mask Recommended

Spill, Leak, and Disposal Information

Procedures to follow if material is released or spilled: N/A

Waste Disposal Method(s): Any excess product can be recycled or further use or disposed of by methods which are in accordance with local, state, and federal regulations.

Additional Information

Coatings may be applied to the surface of metal products. These are classified as protective coatings or lubricants. Typical coatings are as follows:

Phosphates/Oil Magni/LongLife Plating

Phosphates/Paint Zinc Plating

Cadmium Plating Galvanized Plating

The presence of these coatings on metal products should be recognized and considered when evaluating potential employee health hazards and exposures during use.
